A closing solution exclusively for Encompass users

Encompass Closer is designed exclusively for Encompass users and combines the capabilities of the Encompass closer persona with a closing document solution that integrates seamlessly with your Encompass360 software.

What makes Encompass Closer so different? You have a single loan file from start to finish. Unlike using any other document preparation tool, you no longer have to move your loan data from your loan origination system to your closing system. It's all one system! You create your closing documents from

the same file you've been working with all along. Your loan data stays secure and accurate and you minimize the risk of costly compliance violations.

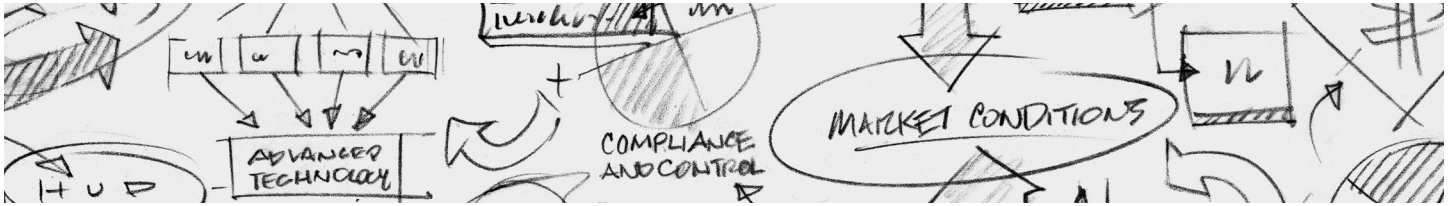

Get a competitive edge when you draw your own docs

When you draw your own loan documents, you create a competitive advantage in the service you provide to your clients, gain greater control over your clients' costs, and fund loans faster. How often have you received a lender approval, but had to wait weeks for your loan documents? With Encompass Closer you can take control of the process and fund more loans in less time. You may also have the opportunity to earn additional revenue on every loan.

Why choose Encompass Closer?

The number one reason mortgage professionals choose Encompass Closer is our customer

Take control of the closing process and fund more loans in less time.
